

## AMB. CONSULT

<b>Observation DateTime</b>	February 16, 2021	<b>Status</b>	F
<b>Reported Date:</b>	February 22, 2021		
<b>Summary Data</b>			
<p>CAR Cardiac Arrhythmia Ambulatory Consult</p> <p>Lenskyj, Adam Adolf MRN: 203-1473 D.O.B. Dec-02-1940</p> <p>February 16, 2021</p> <p>Dr. Anushi Sivarajah St. Michael's Hospital - St. James Town Health Centre 410 Sherbourne Street Toronto, ON M4X 1K2</p> <p>Dear Dr. Sivarajah:</p> <p>Thank you for your note of February 11, indicating that Mr. Lenskyj had documented atrial fibrillation on February 11.</p> <p>This is perhaps not surprising given his multiple comorbidities and his past history of atrial flutter. On this basis, yes I completely agree he should be on lifelong systemic anticoagulation. I would generally recommend Apixaban 5 mg b.i.d. as long as his estimated creatinine clearance is higher than 15 mL per minute. I am glad he is asymptomatic from an arrhythmia standpoint and I agree he does not need any additional rate control, beyond the Bisoprolol that he is already taking.</p> <p>With respect to the need for ongoing antiplatelet agents, his last angioplasty was in 2009, well over a year and a half ago. Guidelines do not recommend combining antiplatelet and anticoagulant agents in this situation. I think his Clopidogrel can safely be stopped. In most cases, we also discontinue Aspirin in this setting and proceed with Apixaban 5 mg b.i.d. as the only anticoagulant. If Dr. Moe or any of his other caregivers feel that he is at particularly high risk of stent restenosis, keeping him on Aspirin 1 tablet a day would be not unreasonable.</p> <p>His most recent estimated GFR was 53 mL per minute with a creatinine of 116, indicating that he should be on the standard dose of Apixaban 5 mg b.i.d.</p> <p>Thank you for the opportunity to participate in his care.</p> <p>Sincerely,</p> <p>Paul Dorian, MD, FRCPC Tel: 416-864-5104 Fax: 416-864-5283 <a href="mailto:dorianp@smh.toronto.on.ca">dorianp@smh.toronto.on.ca</a></p> <p>Electronically Signed by Paul Dorian, MD, FRCPC 22/02/2021 01:05 P</p> <p>cc: Paul Dorian, MD, FRCPC Smh 30 Bond St 7 Victoria Wing S Toronto ON M5B1W8</p> <p>Gordon Moe, MD FRCPC Smh 30 Bond St Rm 6-040 Queen Wing Toronto ON M5B1W8</p> <p>Jeffrey Perl, MD Smh 30 Bond St. 3 - Shuter Room 060 Toronto ON M5B 1W8</p> <p>Anushi Sivarajah, MD</p>
